There are actually regulations around what type of light fittings you can use and where – IP67 rating lights for submerged areas e.g. inside baths and sinks (Zone 0); IP65 for any area above a shower or bath (Zone 1); and IP44 rating for anything 0.6m from a bath or basin (Zone 2). After you've made sure your light fittings are safe and to-code, you can consider the type and style you'd ...

Designing Your Bath - Basics. Bath Basics . Spending some extra time planning your bathroom layout can pay off in the end. Maximizing space and proper placement of fixtures can make a bathroom more than just a place to bathe. Much like a kitchen, several aspects need to be taken into consideration: space layout, plumbing, countertops, safety, seating and storage. These guidelines have been ...

The term for the place used to clean the body varies around the English-speaking world, as does the design of the room itself. A full suite is generally understood to contain a bath or shower (or both), a toilet, and a sink. An en suite bathroom or en suite shower room is attached to, and only accessible from, a bedroom. A family bathroom, in British estate agent terminology, is a full ...
