In the development of curricula within the context of sport which is the area I teach in, this model can be used even for practical performance subject areas and the requirement to show practical skills that have 'model' performances (Armour, 2011). With performances needing to be standardised this model is very well suited to my type of course. There are of course disadvantages to this ...

[Chapter 1. Developing Curriculum Leadership and Design](#)

The chapter which discusses the importance of structure is one which speaks most directly about the development of curriculum, though the whole book is worth reading and rereading. What was done at that conference was the creation of the structural theme that helped in the development of the focal points of curricula. The basic structures, which were developed to help, in turn, in the ...

[Chapter 5 - CONCLUSION](#)

Curriculum Development Process. There are many models of curriculum planning and development. I have chosen three models that basically have the same three components; planning, identification & development, and implementation. For the purpose of this class we will follow model 3 as our template for curriculum development. MODEL 1
