[pemasangan timing chain ford ranger 2.2](#)

The Ford Ranger and identical Mazda B-Series use a high-voltage electronic ignition system. You must be careful not to cross or short any wires or connectors to avoid serious damage to the components. The system of sensors in most models is sufficient to manage the ignition timing without adjustment. Only model years 1993 and 1994 equipped with the 3.0-liter engine can be adjusted. The initial ...

Developed in tandem with the Ford Ranger T6, the Mazda BT-50 is mechanically identical to the Ranger, using the 2.2L and 3.2L Duratorq diesels (as the rebranded MZ-CD engines). In the reverse of Mazda truck tradition in global markets, the second-generation BT-50 was developed by Ford. As the BT-50 was styled using the work of a separate design team, the two vehicles share almost no common ...
