Since Gleitman teaches at my school, for Intro Psychology we are required to use this book, so I bought it at the beginning of last semester, begrudging the high cost of it. After having read it virtually from cover to cover, I can now say with a high degree of certainty that this must be one of the best books for Introduction to Psychology that I can imagine. Each chapter of this book is ...

Psychology is divided into 5 sections dealing with Action, Cognition, Social Behavior, Development, and Individual Differences. Each chapter contains the biological basis at work, because, as the authors so beautifully put it "we aren't just minds; we are minds embodied."This book is for the serious student; the dabbler, and those whose understanding of psychology is limited to pop psych-type ...
