Non-Human Negative Entities. These are what people typically refer to when they say they have an entity in their field, and this is what we will be working with throughout the rest of this article. These are the entities that often possess people, by living within their host's energy body. These entities act like parasites, often completely unbeknownst to their host. Some people have a ...

stumble about the astral planes does not mean they have instant access to advanced spirit beings or guides. For high-level contact to be made at all-in or out of body – it seems that there must be a genuine need for advice or help. High contact does not always work even then. I suspect this is because the need must be important enough to warrant such intervention. Wanting general advice on ...

This is how the negative astral planes have been created, basically all the negative energies have come together to create negative dimensions of Astral Substance, usually of a very low and chaotic vibration. Intoxication by alcohol or other drugs is a common way to resonate with these negative astral planes and attract entities into your energy. In pubs and clubs you will find a strong connection to such planes and an abundance of entities looking for a potential host.

Angels, fairy's, brownie's, leprechauns, and other divine entities. The non human entities that I think you may be referring to, play one (actually many) very important part in our life as we know it. The job of protecting, restoring and preserving Mother Earth falls into the hands of many divine entities.

These astral entities are NOT sentient, so they're nothing like us. They cannot exist above or below the astral frequencies. They cannot operate below FB 4, and get returned to Source above FB 7. Again, the higher these entities get, the more benign they are. But sometimes these energies have been around long enough to gain a minor level of intelligence. They can't "metabolize" their ...

Astral attacks while sleeping can be caused by astral entities and astral bodies of other people. For example, if a person experiences negative emotions towards you in real life, it is likely that his/her astral body makes astral attacks on you at night. Moreover, he/she may not even know what he/she does at night. Of course, there are cases, when people make these

There are lower vibrational entities (both human and non-human) that will look to have astral sex with you simply to feed off your energy. This isn't so much as an energy exchange as it is an energy rape, or psychic vampirism. There's nothing 'mutual' or 'beneficial' about it — such an entity can simply leech you of your energy, and you'll come back to your body feeling drained ...

All these thoughts, words, feelings and emotions point towards a negative presence or a negative entity. William J. Baldwin in his book, Healing Lost Souls: Releasing Unwanted Spirits from Your Energy Body, said, "Spirit possession or control by non-physical entity goes against our most basic human and spiritual rights. It is a possibility both terrifying and preposterous." Psychic ...

It is commonly thought that non-physical entities of any type are completely harmless to projectors, and are only capable of scaring them. While this is generally true, as with the Elemental and Dweller types discussed in 'Astral Dynamics' there are exceptions. The real time, astral and all higher bodies are virtually invulnerable, and definitely cannot be destroyed or killed. However, it is ...

So it is with astral beings. They are living their lives and doing what they need to do to survive, just like all of us. The deer is probably wondering why Source made humans since humans hunt it to death. It's all about perspective. Why aren't astral entities constantly attacking us then? Even a lion sleeps most of the day. It only hunts ...

These entities comprise a parallel evolution called the ...

Cosmicism is the literary philosophy developed and used by the American writer H. P. Lovecraft in his weird fiction. Lovecraft was a writer of philosophically intense horror stories that involve occult phenomena like astral possession and alien miscegenation, and the themes of his fiction over time contributed to the development of this philosophy.

Incubi are actually very beautiful to see and not terrifying at all. They look ...
