Hi I have a 2004 Saturn Vue. Starting hearing this noise from engine area like a whooping sound. Sounds like a sewing machine sound. Its making this sound when you would take off from a dead stop and when you get close to slowing down. It gets faster or slower with the engine rpms. It does get louder right before you slow down and when its going faster you dont hear it hardly since its going faster. One thing I did notice is when idling in driveway in park and neutral you hear it slightly but ...

My 2006 Saturn Vue (170k+ mi.) runs super strong and smooth. However, it makes a knocking noise when first cranked but it goes away after the oil pressure builds. I've been told there is an arm or lever that rises with the oil pressure that is related to or a component of the timing belt and mine is sticking down until oil pressure Max is reached. If I start the car and let it idle or "warm up ...

Vue continues the Saturn tradition of intrusive engine noise under rapid acceleration. In 2002-03 models, the four-cylinder is often quieter than the V6. The 2004 V6 engine yields a rich sound, however. Road rumble is rather pronounced, but freeway wind noise is low. Clearly marked gauges fit into a logical dashboard layout, though climate controls are a bit small, and power-window switches ...
