Paleopathology and other historical records, ... but the United States lacks federal laws regarding health care as a basic human right. This lag of health care security causes subsequent issues with pharmaceutical competition, lack of care for the elderly, and little attention to alternative medicine. Health care and education are plentiful at a price and illness still persists for many ...

The United States of America (USA), commonly known as the United States (U.S. or US) or America, is a country primarily located in North America. It consists of 50 states, a federal district, five major self-governing territories, 326 Indian reservations, and some minor possessions. At 3.8 million square miles (9.8 million square kilometers), it is the world's third- or fourth-largest country ...

[Biological anthropology - Wikipedia](#)

Spondylolysis is a unilateral or bilateral bony defect in the pars interarticularis or isthmus of the vertebra. The term derives from the Greek words spondylos (vertebra) and lysis (defect). [1][2] It can cause a slipping of the vertebra, in which case the term spondylolytic spondylolysthesis is used.
