Malcolm Gladwell explores the different factors that decide the difference between successful and unsuccessful people. We learn what rock stars, geniuses and computer programmers have in common. He explains that success is not just a matter of IQ, but a combination of hard work and opportunity. In Outliers, Gladwell hooks the reader by first providing an anecdote and explaining the common ...

While tackling these questions, Malcolm Gladwell was not solely writing a book for the page. He was also producing for the ear. In the audiobook version of Talking to Strangers, you'll hear the voices of people he interviewed--scientists, criminologists, military psychologists. Court transcripts are brought to life with re-enactments.

In Malcolm Gladwell's book The Tipping Point, he talks about how these epidemics of change start, spread, and hold their momentum. The word 'epidemic' is part of the way he shows how quickly something can take hold and become a massive success. He also shows how the same principles are used to spread negative behaviors and ideas.

The only thing I knew about Malcolm Gladwell's book Outliers, was that this is the book that the 10,000 hour rule came from. The rule says to become world-class at anything, you have to put in 10,000 hours of practice, which equals to about 5 years of uninterrupted 40-hour workweeks worth of practice. In reality, it's often closer to 10 years. Therefore, I expected the book to be about ...
