For the modern-day dating world, all you have to do is swipe right. Some dating sites, such as Bumble, have the women doing the work. Once you swipe and match with someone, it is the woman that has to reach out first to initiate conversation. The method used was meant to flip dating onto its head- to switch up the standard approach practice and relieve men from having all the initial pressure ...

It isn't about how many friends you have in common, or whether you want a boy or a girl or no kids at all, it isn't about how tall someone is or the color or their hair, and it isn't about finding "the one". Dating is a chance — a chance to meet someone new, a chance for them to introduce you to people, places and things that you never knew that you'd love. It's the chance that you ...
