According to the toro site, it is a 1989 model with a 20hp onan, so that helps when looking for manuals and parts. It was probably one of the last garden tractors uilt by Wheel Horse or one of the first built by Toro. Since I found it on the Toro site, might be a Toro, not sure when the changeover happened. Thanks for the info.

Not a quart on the shelf. So I went to TSC and AutoZone - same problem. I beginning to think straight 30 weight is gone. The manual says to use 10W-30 only below 32 degrees, so now comes my ...
